Special Orientation Program for Future Hospital Trustees

Do you know someone interested in serving as a hospital or health system trustee who would benefit from an innovative orientation program?  

October 6 – Chicago, IL

Many qualified individuals are either unaware of the existing opportunities in their communities or don’t know how to offer their names and talents for consideration.

That’s why the American Hospital Association’s Center for Healthcare Governance and Institute for Diversity in Health Management are sponsoring a special program to prepare and promote individuals from diverse backgrounds who are interested in serving on the board of their local hospital or health system.

It is our hope that this innovative one-day program will provide potential trustees with a better understanding of health care governance. The names of those who successfully complete the program will be listed in an online registry, along with a brief profile, that hospitals and health systems can access when seeking to fill board and committee vacancies. While we cannot guarantee placement, we hope that this registry will become a valuable tool to connect hospitals and health systems with potential trustees.

The upcoming program will be held on Sunday, October 6, 2013 at the InterContinental Chicago Magnificent Mile, Chicago, IL.

If you would like to be considered for participation in this special session, please go to www.americangovernance.com/TCRegistration to complete the application form and profile. You will also be asked to submit a photo. It will give you step-by-step directions for what is needed to enroll in the program. You will be notified of your acceptance into the program.
